## LA NOSTRA STORIA • OUR STORY

AVUS RACING è un marchio registrato di RVS srl, azienda Italiana specializzata nella produzione di cerchi in lega per autovetture, suv/offroad e veicoli commerciali.

L'azienda, fondata nel 1979 a Castelfranco Veneto vicino a Venezia, opera dagli anni '90 nel mercato come partner industriale di famosi produttori nazionali di cerchi in lega.

Dal giugno 2007, RVS ha gestito la produzione e la distribuzione per l'Europa delle ruote monoblocco in lega "AVUS racing", marchio conosciuto nel mondo grazie alla fornitura di prestigiosi Team di Formula 1 come Red Bull e Toro Rosso (2007) e ING Renault (2008). Il marchio AVUS racing è stato inoltre presente nel campionato DTM con il Team Mercedes fino al 2007.

L'intero ciclo produttivo viene seguito minuziosamente e attentamente in ogni fase: dallo sviluppo del design all'imballaggio, attraverso la progettazione con calcolo strutturale (FEM), la produzione degli stampi con sistemi computerizzati cad-cam, la fusione in conchiglia, la lavorazione meccanica a CNC fino all'operazione finale di controllo del prodotto, imballato e stoccato. Tutto viene eseguito nel rispetto dell'ambiente, da sempre elemento di distinzione di RVS.

Vengono effettuati internamente ulteriori test: verifica sulla qualità delle materie prime, controlli a raggi X, flessione rotante, impact test, prova TBL e controllo dimensionale sui prodotti lavorati.

RVS, infatti, è da anni certificata UNI EN ISO 9001:2000 dall'autorevole ente tedesco TÜV ed è inoltre fornitore accreditato di alcune tra le più importanti case automobilistiche Europee.

*AVUS RACING is a registered trademark of RVS Srl, an Italian alloy wheels manufacturer for cars, SUV, off-road and commercial vehicles.*

*The company, founded in 1979 in Castelfranco Veneto, near Venice, since the 90's operates in the automotive market as partner of prestigious national alloy wheels producers.*

*Since June 2007, RVS managed the production and distribution for the European market of monoblock alloy wheels "AVUS racing", a brand known through out the world thanks to the supply of prestigious Formula 1 team like "Red Bull", "Toro Rosso" (2007) and "ING Renault" (2008). The brand was also present in DTM with Mercedes team until 2007.*

*June 2008: RVS Srl acquire the brand "AVUS Racing".*

*The entire production cycle is followed meticulously and carefully at every process stage: from the design development to the packaging through the project with structural analysis (FEM), the moulds production with computerized cad-cam systems, the gravity casting and CNC machining to the final product control, packed and stored in our warehouse, everything in accordance with the respect of the environment that has always distinguished RVS company.*

*Additional control tests are carried out internally: X-ray and raw materials quality control, bending moment, impact and TBL tests, dimensional control.*

*RVS is in fact a certified company UNI EN ISO 9001:2000 by the authoritative German TÜV and is also an accredited supplier of some of the most important European car manufacturers.*

**Max load 1300 kg**

Il sistema brevettato RBS01 è ad oggi l'unico al mondo che permette l'uso del cerchio con e senza anello beadlock.

Questo sistema è un'evoluzione migliorativa rispetto ai sistemi tradizionali che prevedono la modifica strutturale del canale del cerchio per permettere l'applicazione della flangia, rendendo però impossibile l'uso del cerchio senza anello.

*The patented RBS01 system is the only system in the world that allows the rim to be used with and without a beadlock ring.*

*This system is an evolutionary improvement compared to traditional systems which require the structural modification of the rim width to allow the application of the flange, however making impossible the use of the rim without ring after the modification itself.*
