THE COMPANY

MAK S.p.A., manufacturer of alloy wheels since 1991, represents today an established brand, recognized among the major leaders in the sector both on the national and on the international scene. The main elements of **MAK**'s success are the high quality standards, the wide variety of the product range, the speed in responding to the market needs and the high flexibility in planning and customizing orders. Thanks to a fully stocked warehouse, with more than 120,000 wheels and about 4,000 items, **MAK** quickly reaches the customer through fast deliveries all over the world.

Made in Italy design and quality distinguish the company, which is finding growing acceptance especially in the segment of medium-high range cars.

L'AZIENDA

MAK S.p.A. azienda produttrice di ruote in lega nata nel 1991, rappresenta oggi un marchio affermato riconosciuto tra i maggiori leader del settore tanto nel panorama nazionale quanto in quello internazionale. Gli elementi principali del successo di **MAK** sono gli elevati standard di qualità, l'ampia varietà della gamma prodotti, la velocità nel rispondere alle esigenze del mercato e l'elevata flessibilità nella pianificazione e personalizzazione degli ordini. Grazie a un magazzino sempre fornito, con più di 120.000 ruote e circa 4.000 articoli, **MAK** raggiunge velocemente il cliente attraverso consegne rapide in ogni parte del mondo.

Design e qualità Made in Italy contraddistinguono l'azienda, che trova un crescente consenso soprattutto nel segmento delle vetture di fascia medio-alta.

PRODUCTION PROCESS / PROCESSO PRODUTTIVO

Automated foundry / *Fonderia automatizzata*

New painting plant 4.0 / *Nuovo impianto di verniciatura 4.0*

New packaging line / *Nuova linea di imballaggio*

Central Warehouse / *Magazzino centrale*

HOMOLOGATIONS

All **MAK** wheels are homologated according to each country regulations. **MAK** range is always up-to-date thanks to a constant and strong effort during the homologation process, test and quality check. Along with each wheel **MAK** provides the required homologation paper, granting the conformity of the wheels mounted on your car.

MAK laboratory achieved the **VIA certification** and **accreditation from the Ministry of Infrastructure and Transport** to proceed with the required tests for the approval of its products. Companies are awarded with these certifications only after a careful scrutiny by the competent authorities, who recognized **MAK** the necessary quality to test their products.

OMOLOGAZIONI

Tutte le ruote **MAK** sono omologate secondo le normative vigenti nei vari paesi del mondo. Un costante e intenso impegno nelle fasi di omologazione, di test e di controllo qualità, permette alla gamma **MAK** di essere sempre aggiornata. Ogni ruota è corredata dalla necessaria documentazione che garantisce la regolarità del prodotto montato sulla vostra auto.

Il laboratorio **MAK** ha conseguito la **certificazione VIA** e l'**accreditamento dal Ministero delle Infrastrutture e dei Trasporti** per lo svolgimento dei test necessari all'omologazione dei propri prodotti. Queste certificazioni vengono attribuite solo dopo una scrupolosa verifica da parte degli enti competenti, che ne riconoscono la qualità necessaria e idonea a testare i propri prodotti.

NEW PAINTING PLANT 4.0

In 2022 **MAK** inaugurated its new painting plant, belonging to the Industry 4.0 class and allowing therefore the connection between physical and digital systems, complex analysis through Big Data and real-time adaptations of the production. The highly automated plant, built and designed with the most recent technologies, ensures higher quality, better control of the production process, greater continuity over time and increased production capacity of the painting process.

The Research & Development department is constantly directed towards the search for an improvement in the production process, in order to guarantee the final consumer a product of high and ever better quality.

NUOVO IMPIANTO DI VERNICIATURA 4.0

Nel 2022 è stato inaugurato il nuovo impianto di Verniciatura di proprietà di **MAK**, appartenente alla classe industria 4.0, progettato e realizzato seguendo le più recenti tecnologie che consentono la connessione tra sistemi fisici e digitali, analisi complesse attraverso Big Data e adattamenti real-time della produzione. L'impianto ad elevata automazione, realizzato con le più recenti tecnologie, assicura una più elevata qualità, un migliore controllo del processo produttivo, una maggiore continuità nel tempo e una incrementata capacità produttiva del processo di verniciatura.

Il reparto Ricerca & Sviluppo è costantemente indirizzato alla ricerca di un miglioramento del processo produttivo, al fine di garantire al consumatore finale un prodotto di elevata e sempre miglior qualità.
